

WAVE Newsletter - September 2018

After a hot summer – a busy autumn!

WAVE Working Committees cornerstone meeting HIV Glasgow, October 30, 2018

A space to forge the action plan for WAVE, the WAVE Working Committees cornerstone meeting will take place during the HIV Drug Therapy Congress in Glasgow. We invite you to share your experience and your plans to support future research and collaborations for HIV and women topics. We count on your presence!

EACS-WAVE joint session: “What Women Want” HIV Glasgow, October 31, 2018

We invite you to join our session: Clinical cases and lectures on women living with HIV covering PrEP, Pharmacokinetic studies, HCV treatment and pregnancy.

WAVE Working Committees have started their work online!

There is a dedicated group for each WAVE working committee (WWC) on groups.io. This online platform enables you to connect with the WWC members and engage in the WAVE working plan. You can exchange with colleagues with a common interest in your clinical work or research or just share your experience. Documents and files (e.g. powerpoints) can be made available for the members of your committee.

How to join the WAVE Working Committees?

You need to take the WWC survey to join a committee and indicate your preferences. If you have not yet received it, please contact WaveSecretariat@eacsociety.org.

Completing the WWC survey is your formal consent to become a WAVE member.

Connect, engage, be an active member of the WAVE community and address all issues important for women living with HIV.

We are very much looking forward to meeting you at the HIV Glasgow Conference.

We will keep you updated on the WAVE activities through our dedicated newsletter and posts on groups.io.

Best wishes,

Justyna Kowalska / Karoline Aebi-Popp
